

WAITING FOR THE RESULTS?

Whether you participated in a health dialogue in your town, completed our online survey, or want to know more about LGBT health — join us for a **Conversation on LGBT Health with Marguerite Salazar**, Regional Director of the U.S. Department of Health & Human Services!

In the summer of 2011, One Colorado Education Fund invested in a comprehensive health study (generously underwritten by Denver Health) to discover and document the state of LGBT health and wellness in Colorado. And now, after months of data analysis, we're ready to share the results of our study with you.

Join Us for a roundtable discussion on the state of LGBT health and wellness with:
